

Dear Patients and Friends,

After 41 years of practicing a profession that I truly love, I have made the difficult decision to transition into retirement. It has been an honor and a privilege to serve your dental needs. In some cases I have treated three generations of your family. Thank you for your trust and for the wonderful friendships that we have forged over all of these years.

I am happy to say, after a long and careful search, I have found the right dentist to take over my practice. His name is Dr. Mohammed Rahman. Dr. Rahman is a New Jersey native who graduated from Colgate University. He then went on to pursue his Master's degree in biomedical sciences at Rutgers University, New Jersey Medical School, and his DDS degree at New York University. Dr. Rahman also completed a one year Fellowship in implantology.

Dr. Rahman is skilled in general, restorative, and cosmetic dentistry as well as in the placement of implants. He has hundreds of hours of advanced training from some of the world's leading institutions in the field of esthetics and implants. He and I share the same treatment philosophy, and you will find him to be very caring, compassionate, and down to earth.

Dr. Rahman is looking forward to working with the staff to continue the exceptional care you have come to expect from the practice. My hygienist and office manager, Laura, and my team members Patti and Kathy will continue to work here with Dr. Rahman. I appreciate the confidence and kindness you have shown me over the years. I know that you will extend the same support to Dr. Rahman and allow him the privilege of continuing to provide for your dental care.

Dr. Rahman and I have worked closely together to ensure a smooth transition. We will gladly answer any of your questions about the transition in the weeks ahead.

Sincerely,

Dr. Anita Skolnick

410 Ramapo Valley Rd.
Oakland, NJ 07436
